PRESIDENT: Senator Conway, please.

SENATOR CONWAY: Mr. President, members, LB 1051 is a very
simple little bill that makes some minor adjustments.   The...in
1985, we passed LB 404 which dealt with providing proof of
financial responsibility for automobiles driven in the State of
Nebraska.   At that time there were three different provisions
that you   could   use   as   evidence   for   that financial
responsibility; one was your typical insurance situation, two
was the posting of a bond, and three was a certificate with the
State Treasurer showing that you have on deposit cash in the
amount...cash and/or securities in the amount that it is capable
of providing financial responsibility.   The treasurer's office
informed us that there is som‡ difficulty in the language, and
that is what this bill intends to do. One, we need to be very
specific about the fact that the amount of money is a per
vehicle situation.   It   used   to be $40,000, but it didn't
specifically say that was per vehicle and it was intended to be
per vehicle. The second part of that would be to raise that
40,000 up to 75,000, which would be in line of a similar vein of
financial responsibility with what we require as a minimum for
our insurance provision. So what this bill simply does is moves
it up from 40 to 75 thousand and also is specific in the
language that it is a per vehicle situation.

PRESIDENT: Any further discussion? If not, the question is the
advancement of the bill. All those in favor vote aye, opposed
nay. Record, Mr. Clerk, please.

CLERK: 25 ayes, 0 nays, Mr. President, on the advancement of
1051.

PRESIDENT: The bill is advanced. LB 1045.

CLERK: 1045, Mr. President, was a bill by Senator Schmit and
Senator Korshoj.   (Read title.)   The bill was introduced on
January 11 of this year, referred to Natural Resources, advanced
to General File. I have no amendments to the bill.

PRESIDENT: Senator Schmit, please.

SENATOR SCHMIT: Mr. President and members, LB 1045 provides for
